I

AFFIDAVIT

The State of Missouri)

)s.s.

County of Cole)

I,

, Missouri, MAKE OATH AND SAY THAT:

In the month of January 2016, David Poger came into contact with me. After trying pleasantly to show I was not interested in having a conversation, he continued to try and communicate with me. He started to make compliments towards me and started to make me feel uncomfortable. I excused myself and left the vicinity he occupied. A few days later he approached me again, trying to start a conversation that I showed I was not interested in. He sat next to me until I excused myself once again from the side gallery. Upon returning to the gallery he asked for me to get lunch with him to which I said no and left with my representative. The next week he again asked me to lunch, this time making contact with me as though ushering me to go with him to lunch, again I said no and left with my representative. On about the 21st of January, I informed my representative, that I did not know this man and that he had been persistent in making contact with me over the length of the last week. said that if I was having an issue with this man to notify him and he would address the matter. A few days after this exchange, the man approached me again this time I was among a group of fellow interns. This time he made comments insinuating he could help me make life choice and to contact him any time, giving me a card with his number on it. During this incident he ignored the other interns surrounding me and only addressed me, singling me out of the group. On Thursday the 28th of January, I reported him to my representative and he contacted Mr. Poger's superior. After this the accused would remain at a distance from me but still would wink at me any time he saw me. This continued to make me feel uncomfortable.

SUBSCRIBED AND SWORN TO BEFORE ME, Kristal J. Hall, on the
24th day of February, 2016
